What is Paperless Billing?

Paperless billing is a way to eliminate the inconvenience of waiting for paper bills to arrive in the mail, and then waiting for confirmation that your payment has been credited to your account. By going paperless, you'll receive and pay your bills faster because you won't have to wait for the mail, everything is done electronically at your convenience. Plus, you save money on postage and spend a few seconds rather than minutes paying your bill.

Within the eService bill payment Web site, you can see everything you would normally see on a paper bill. There is summary information showing the payment date, amount due, and so on. Then, you can click a button to see your complete bill detail. You'll also receive an e-mail notification each time a new bill arrives for you to view or pay.

To pay a bill, all you have to do is check your bill online and click a button to pay it. Your bills are available online for 13 months. You also have the options to save your bill detail on your computer for a long-term storage or for printing at a later time.
