### Partial Surrenders

#### Rules

- May be requested any time after 5th policy year.
- Partial surrender request should be received in writing at least 10 days before the allocation day.
- Available amount equals the amount up to the Accumulation Value less any outstanding loan amounts.

#### Policy Impacts

- Death benefit and premium will be reduced proportionately by the amount of the surrender.
- Cash value will be reduced by the amount of the surrender.

Example: Policy has \$10,000 cash value; policy owner makes \$5,000 withdrawal. This reduces the policy cash value by \$5,000 and reduces the premium and death benefit by 50%.

### Loans

#### Rules

- Loans are available any time the policy is in force.
- Loan amount available is equal to or less than the Accumulation Value less surrender charge; less any prior outstanding loan amount; less the amount to be borrowed to the next policy anniversary; less interest on any prior outstanding loan amount to the next policy anniversary.
- Preferred Loans are available on the 10th policy anniversary.
- A Preferred Loan is a Standard Loan that is made at a net cost to the policy owner that is less than the net cost of other Standard Loans. "Net cost" is the amount of interest charged for the loan less interest credited to the amount of the Accumulation Value equal to a loan.
- Preferred Loan interest to the next policy anniversary is due in advance.

#### Policy Impacts

- Potential impact on the guaranteed death benefit duration.
- Policy will lapse at any time if the outstanding loan amount exceeds the Accumulation Value less surrender charge.
- Interest not paid when due will be added to the outstanding loan balance.

This guide only refers to our currently marketed products as listed in this document. The rules and impacts may vary for older products which are no longer available.
