DISCUSSION OF FUND PERFORMANCE (Unaudited)

For the period from January 1, 2020 through December 31, 2020, as provided by Patrick Kent, CFA, CMT and James Boyd, CFA, Portfolio Managers

Market and Fund Performance Overview

For the 12-month period ended December 31, 2020, BNY Mellon Variable Investment Fund, Opportunistic Small Cap Portfolio's Initial shares produced a total return of 19.89%, and its Service shares produced a total return of 19.58%.¹ In comparison, the Russell 2000[®] Index (the "Index"), the fund's benchmark, produced a total return of 19.96% for the same period.²

Small-cap stocks rose over the reporting period, as the economy recovered in response to easing government shutdowns and the prospect of COVID-19 vaccines. The fund slightly lagged the Index, mainly due to unfavorable security selections in the health care and energy sectors.

The Fund's Investment Approach

The fund seeks capital growth. To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in the stocks of small-cap companies. The fund currently considers small-cap companies to be those companies with market capitalizations that fall within the range of the companies in the Index. Stocks are selected for the fund's portfolio based primarily on bottom-up, fundamental analysis. The fund's portfolio managers use a disciplined investment process that relies, in general, on proprietary fundamental research and valuation.

Generally, elements of the process include analysis of mid-cycle business prospects, estimation of the intrinsic value of the company and the identification of a revaluation trigger catalyst. In general, the fund seeks exposure to securities and sectors that are perceived to be attractive from a valuation and fundamental standpoint.

Stocks Recover as the Economy Rebounds

Prior to the reporting period, stocks were supported by three rate cuts by the Federal Reserve (the "Fed") late in 2019, by steady economic data and an announcement of a "Phase One" U.S.-China trade agreement. Stocks also benefited from the approval of a new U.S.-Mexico-Canada Trade Agreement, potentially reducing trade uncertainty with America's neighbors.

However, early in 2020, markets experienced a sharp correction, amid growing concerns about COVID-19 in China, erasing gains that occurred late in 2019 and early in 2020. In response, the Fed reduced the federal funds rate by 50 basis points early in March 2020, bringing the target rate down to 1.00–1.25%. The Fed made another cut in mid-March 2020, bringing the federal funds rate target to 0.00-0.25%.

In addition, the Fed and other central banks initiated various programs to ease liquidity concerns in certain markets, and government authorities introduced programs to keep small businesses afloat. Steps were also taken to provide relief to employees who had lost their jobs as a result of government-mandated business shutdowns.

In the second quarter of 2020, the economy began to show signs of recovery. Retail sales rebounded, and the outlook for manufacturing also improved. Job creation surged, beating economists' expectations, and markets began to rebound as relief programs took effect, government shutdowns began to ease, economic data improved and hope for a COVID-19 vaccine or effective therapy took hold.

Late in the reporting period, markets benefited from the announcement that COVID-19 vaccines would be available within a few months. Uncertainty surrounding the November 2020 election also eased, and investors began to factor the likelihood of additional stimulus and infrastructure spending into their calculations. With the end of the pandemic in view and continued economic rebound likely, investors began to shift away from growth-oriented stocks and into value-oriented stocks.

Security Selections in Two Sectors Hindered Fund Performance

The fund's performance versus the Index was primarily the result of selections in the health care and energy sectors, which detracted from returns. In the health care sector, the fund's underweight position in the biotech industry also hampered performance. In the pharmaceutical industry, two companies whose product launches were delayed by the pandemic, *TherapeuticsMD* and *Flexion Therapeutics*, hindered returns. In the energy sector, PBF Energy, a refiner, and *Scorpio Tankers*, a shipping company, also detracted from fund returns.

On a more positive note, favorable stock selections in the real estate, financials, materials and utilities sectors contributed positively to performance. An underweight to the banking industry was also beneficial. In the real estate sector, shares of Redfin, a broker and online information provider, benefited from a rebound in home sales and an increased market share. In the financial sector, a position in *Palomar Holdings*, an insurance company specializing in earthquake coverage, experienced strong demand and improved pricing. In addition, PJT Partners, an investment bank focused on restructuring and merger & acquisition advisory services, experienced strong demand resulting from the economic downturn. A position in insurance company, BRP Group, was beneficial as well. In the materials sector, gold mining company, Alamos Gold gained as a result of higher gold prices and improved operating efficiency. MP Materials, which specializes in rare earth materials, also contributed positively. In the utilities sector, two companies focused on renewable energy performed well, NextEra Energy Partners and Clearway Energy.

An Optimistic Outlook for Small-Cap Stocks

The backdrop for small-cap equities remains favorable, given the improving economy and accommodative policies of central banks around the world. Although the first quarter of 2021 could be difficult due to ongoing challenges related to the pandemic, we believe that year-over-year profitability should rise as the year progresses, vaccines are distributed, the economy continues to open, and warm weather returns. We are finding attractive opportunities in the health care, information technology and consumer discretionary sectors,

DISCUSSION OF FUND PERFORMANCE (Unaudited) (continued)

and we continue to look for opportunities in industries that will benefit from the progressive opening of the economy.

January 15, 2021

¹ *Total return includes reinvestment of dividends and any capital gains paid. Past performance is no guarantee of future results. Share price and investment return fluctuate such that upon redemption, fund shares may be worth more or less than their original cost. The fund's performance does not reflect the deduction of additional charges and expenses imposed in connection with investing in variable insurance contracts, which will reduce returns.*

² *Source: Lipper Inc. — The Russell 2000® Index measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2000 Index is a subset of the Russell 3000® Index, representing approximately 10% of the total market capitalization of that index. It includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership. The Russell 2000 is constructed to provide a comprehensive and unbiased, small-cap barometer and is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true, small-cap opportunity set. Investors cannot invest directly in any index.*

Please note: the position in any security highlighted with italicized typeface was sold during the reporting period.

Equities are subject generally to market, market sector, market liquidity, issuer and investment style risks, among other factors, to varying degrees, all of which are more fully described in the fund's prospectus.

Stocks of small- and/or mid-cap companies often experience sharper price fluctuations than stocks of large-cap companies.

The fund is only available as a funding vehicle under variable life insurance policies or variable annuity contracts issued by insurance companies. Individuals may not purchase shares of the fund directly. A variable annuity is an insurance contract issued by an insurance company that enables investors to accumulate assets on a tax-deferred basis for retirement or other long-term goals. The investment objective and policies of BNY Mellon Variable Investment Fund, Opportunistic Small Cap Portfolio made available through insurance products may be similar to those of other funds managed or advised by BNY Mellon Investment Adviser, Inc. However, the investment results of the fund may be higher or lower than, and may not be comparable to, those of any other BNY Mellon fund.

Recent market risks include pandemic risks related to COVID-19. The effects of COVID-19 have contributed to increased volatility in global markets and will likely affect certain countries, companies, industries and market sectors more dramatically than others. To the extent the fund may overweight its investments in certain countries, companies, industries or market sectors, such positions will increase the fund's exposure to risk of loss from adverse developments affecting those countries, companies, industries or sectors.

FUND PERFORMANCE (Unaudited)

Comparison of change in value of a \$10,000 investment in Initial shares and Service shares of BNY Mellon Variable Investment Fund, Opportunistic Small Cap Portfolio with a hypothetical investment of \$10,000 in the Russell 2000® Index (the “Index”)

† Source: Lipper Inc.

Past performance is not predictive of future performance. The fund’s performance does not reflect the deduction of additional charges and expenses imposed in connection with investing in variable insurance contracts which will reduce returns.

The above graph compares a hypothetical investment of \$10,000 made in each of the Initial and Service shares of BNY Mellon Variable Investment Fund, Opportunistic Small Cap Portfolio on 12/31/10 to a hypothetical investment of \$10,000 made in the Index on that date.

The fund’s performance shown in the line graph above takes into account all applicable fees and expenses. The Index measures the performance of the small-cap segment of the U.S. equity universe. The Index is a subset of the Russell 3000® Index representing approximately 10% of the total market capitalization of that index. It includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership. The Index is constructed to provide a comprehensive and unbiased small-cap barometer and is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set. Unlike a mutual fund, the Index is not subject to charges, fees and other expenses. Investors cannot invest directly in any index. Further information relating to fund performance, including expense reimbursements, if applicable, is contained in the Financial Highlights section of the prospectus and elsewhere in this report.

Average Annual Total Returns as of 12/31/2020

	1 Year	5 Years	10 Years
Initial shares	19.89%	11.52%	10.21%
Service shares	19.58%	11.24%	9.93%
Russell 2000® Index	19.96%	13.26%	11.20%

The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate and an investor’s shares may be worth more or less than original cost upon redemption. Current performance may be lower or higher than the performance quoted. Go to www.im.bnymellon.com for the fund’s most recent month-end returns.

The fund’s Initial shares are not subject to a Rule 12b-1 fee. The fund’s Service shares are subject to a 0.25% annual Rule 12b-1 fee. All dividends and capital gain distributions are reinvested.

The fund’s performance shown in the graph and table does not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.

UNDERSTANDING YOUR FUND'S EXPENSES (Unaudited)

As a mutual fund investor, you pay ongoing expenses, such as management fees and other expenses. Using the information below, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You also may pay one-time transaction expenses, including sales charges (loads), redemption fees and expenses associated with variable annuity or insurance contracts, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial adviser.

Review your fund's expenses

The table below shows the expenses you would have paid on a \$1,000 investment in BNY Mellon Variable Investment Fund, Opportunistic Small Cap Portfolio from July 1, 2020 to December 31, 2020. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

Expenses and Value of a \$1,000 Investment		
Assume actual returns for the six months ended December 31, 2020		
	Initial Shares	Service Shares
Expense paid per \$1,000 [†]	\$4.95	\$6.43
Ending value (after expenses)	\$1,370.30	\$1,368.30

COMPARING YOUR FUND'S EXPENSES WITH THOSE OF OTHER FUNDS (Unaudited)

Using the SEC's method to compare expenses

The Securities and Exchange Commission ("SEC") has established guidelines to help investors assess fund expenses. Per these guidelines, the table below shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total cost) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to help you make this comparison. Please note that you cannot use this information to estimate your actual ending account balance and expenses paid during the period.

Expenses and Value of a \$1,000 Investment		
Assuming a hypothetical 5% annualized return for the six months ended December 31, 2020		
	Initial Shares	Service Shares
Expense paid per \$1,000 [†]	\$4.22	\$5.48
Ending value (after expenses)	\$1,020.96	\$1,019.71

[†] Expenses are equal to the fund's annualized expense ratio of .83% for Initial Shares and 1.08% for Service Shares, multiplied by the average account value over the period, multiplied by 184/366 (to reflect the one-half year period).

FINANCIAL HIGHLIGHTS

The following tables describe the performance for each share class for the fiscal periods indicated. All information (except portfolio turnover rate) reflects financial results for a single fund share. Net asset value total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, and redemption at net asset value on the last day of the period. Net asset value total return includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. The fund's total returns do not reflect expenses associated with variable annuity or insurance contracts. These figures have been derived from the fund's financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1—Significant Accounting Policies:

Opportunistic Small Cap Portfolio (the “fund”) is a separate diversified series of BNY Mellon Variable Investment Fund (the “Company”), which is registered under the Investment Company Act of 1940, as amended (the “Act”), as an open-end management investment company and operates as a series company currently offering four series, including the fund. The fund is only offered to separate accounts established by insurance companies to fund variable annuity contracts and variable life insurance policies. The fund’s investment objective is to seek capital growth. BNY Mellon Investment Adviser, Inc. (the “Adviser”), a wholly-owned subsidiary of The Bank of New York Mellon Corporation (“BNY Mellon”), serves as the fund’s investment adviser.

BNY Mellon Securities Corporation (the “Distributor”), a wholly-owned subsidiary of the Adviser, is the distributor of the fund’s shares, which are sold to the public without a sales charge. The fund is authorized to issue an unlimited number of \$.001 par value shares of Beneficial Interest in each of the following classes of shares: Initial and Service. Each class of shares has identical rights and privileges, except with respect to the Distribution Plan, and the expenses borne by each class, the allocation of certain transfer agency costs, and certain voting rights. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on its relative net assets.

The Company accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative U.S. generally accepted accounting principles (“GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (“SEC”) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund is an investment company and applies the accounting and reporting guidance of the FASB ASC Topic 946 Financial Services-Investment Companies. The fund’s financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Company enters into contracts that contain a variety of indemnifications. The fund's maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund's investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1—unadjusted quoted prices in active markets for identical investments.

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the fund's investments are as follows:

Investments in equity securities are valued at the last sales price on the securities exchange or national securities market on which such securities are primarily traded. Securities listed on the National Market System for which market quotations are available are valued at the official closing price or, if there is no official closing price that day, at the last sales price. For open short positions, asked prices are used for valuation purposes. Bid

price is used when no asked price is available. Registered investment companies that are not traded on an exchange are valued at their net asset value. All of the preceding securities are generally categorized within Level 1 of the fair value hierarchy.

Securities not listed on an exchange or the national securities market, or securities for which there were no transactions, are valued at the average of the most recent bid and asked prices. These securities are generally categorized within Level 2 of the fair value hierarchy.

Fair valuing of securities may be determined with the assistance of a pricing service using calculations based on indices of domestic securities and other appropriate indicators, such as prices of relevant ADRs and futures. Utilizing these techniques may result in transfers between Level 1 and Level 2 of the fair value hierarchy.

When market quotations or official closing prices are not readily available, or are determined not to accurately reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded (for example, a foreign exchange or market), but before the fund calculates its net asset value, the fund may value these investments at fair value as determined in accordance with the procedures approved by the Company's Board of Trustees (the "Board"). Certain factors may be considered when fair valuing investments such as: fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased and sold, and public trading in similar securities of the issuer or comparable issuers. These securities are either categorized within Level 2 or 3 of the fair value hierarchy depending on the relevant inputs used.

For securities where observable inputs are limited, assumptions about market activity and risk are used and such securities are generally categorized within Level 3 of the fair value hierarchy.

The following is a summary of the inputs used as of December 31, 2020 in valuing the fund's investments:

NOTES TO FINANCIAL STATEMENTS (continued)

	Level 1- Unadjusted Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total
Assets (\$)				
Investments in Securities: †				
Equity Securities -				
Common Stocks	299,300,770	-	-	299,300,770
Investment				
Companies	18,929,247	-	-	18,929,247

† See Statement of Investments for additional detailed categorizations, if any.

(b) Foreign Taxes: The fund may be subject to foreign taxes (a portion of which may be reclaimable) on income, stock dividends, realized and unrealized capital gains on investments or certain foreign currency transactions. Foreign taxes are recorded in accordance with the applicable foreign tax regulations and rates that exist in the foreign jurisdictions in which the fund invests. These foreign taxes, if any, are paid by the fund and are reflected in the Statement of Operations, if applicable. Foreign taxes payable or deferred or those subject to reclaims as of December 31, 2020, if any, are disclosed in the fund's Statement of Assets and Liabilities.

(c) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recognized on the ex-dividend date and interest income, including, where applicable, accretion of discount and amortization of premium on investments, is recognized on the accrual basis.

Pursuant to a securities lending agreement with The Bank of New York Mellon, a subsidiary of BNY Mellon and an affiliate of the Adviser, the fund may lend securities to qualified institutions. It is the fund's policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral equivalent to at least 100% of the market value of securities on loan is maintained at all times. Collateral is either in the form of cash, which can be invested in certain money market mutual funds managed by the Adviser, or U.S. Government and Agency securities. The fund is entitled to receive all dividends, interest and distributions on securities loaned, in addition to income earned as a result of the lending transaction. Should a borrower fail to return the securities in a timely manner, The Bank of New York Mellon is required to replace the securities for the benefit of the fund or credit the fund with the market value of the unreturned securities and is subrogated to the fund's rights against the borrower and the collateral. Additionally, the contractual

maturity of security lending transactions are on an overnight and continuous basis. During the period ended December 31, 2020, The Bank of New York Mellon earned \$42,500 from the lending of the fund's portfolio securities, pursuant to the securities lending agreement.

(d) Affiliated issuers: Investments in other investment companies advised by the Adviser are considered "affiliated" under the Act.

(e) Risk: Certain events particular to the industries in which the fund's investments conduct their operations, as well as general economic, political and public health conditions, may have a significant negative impact on the investee's operations and profitability. In addition, turbulence in financial markets and reduced liquidity in equity, credit and/or fixed income markets may negatively affect many issuers, which could adversely affect the fund. Global economies and financial markets are becoming increasingly interconnected, and conditions and events in one country, region or financial market may adversely impact issuers in a different country, region or financial market. These risks may be magnified if certain events or developments adversely interrupt the global supply chain; in these and other circumstances, such risks might affect companies worldwide. Recent examples include pandemic risks related to COVID-19 and aggressive measures taken world-wide in response by governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines of large populations, and by businesses, including changes to operations and reducing staff. To the extent the fund may overweight its investments in certain countries, companies, industries or market sectors, such positions will increase the fund's exposure to risk of loss from adverse developments affecting those countries, companies, industries or sectors.

(f) Dividends and distributions to shareholders: Dividends and distributions are recorded on the ex-dividend date. Dividends from investment income-net and dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gains can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

(g) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interests of its shareholders, by complying with the applicable provisions of the Code, and to make distributions of taxable income and

net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended December 31, 2020, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period ended December 31, 2020, the fund did not incur any interest or penalties.

Each tax year in the four-year period ended December 31, 2020 remains subject to examination by the Internal Revenue Service and state taxing authorities.

At December 31, 2020, the components of accumulated earnings on a tax basis were as follows: undistributed ordinary income \$340,043, accumulated capital losses \$3,896,783 and unrealized appreciation \$72,740,462.

The fund is permitted to carry forward capital losses for an unlimited period. Furthermore, capital loss carryovers retain their character as either short-term or long-term capital losses.

The accumulated capital loss carryover is available for federal income tax purposes to be applied against future net realized capital gains, if any, realized subsequent to December 31, 2020. The fund has \$3,896,783 of long-term capital losses which can be carried forward for an unlimited period.

The tax character of distributions paid to shareholders during the fiscal periods ended December 31, 2020 and December 31, 2019 were as follows: ordinary income \$1,535,285 and \$6,559,931, and long-term capital gains \$0 and \$24,907,525, respectively.

NOTE 2—Bank Lines of Credit:

The fund participates with other long-term open-end funds managed by the Adviser in a \$823.5 million unsecured credit facility led by Citibank, N.A. (the “Citibank Credit Facility”) and a \$300 million unsecured credit facility provided by The Bank of New York Mellon (the “BNYM Credit Facility”), each to be utilized primarily for temporary or emergency purposes, including the financing of redemptions (each, a “Facility”). The Citibank Credit Facility is available in two tranches: (i) Tranche A is in an amount equal to \$688.5 million and is available to all long-term open-ended funds, including the fund, and (ii) Tranche B is an amount equal to \$135 million and is available only to BNY Mellon Floating Rate Income Fund, a series of BNY Mellon Investment Funds IV, Inc. Prior to September 30, 2020, the Citibank Credit Facility was \$927 million with

Tranche A available in an amount equal to \$747 million and Tranche B available in an amount equal to \$180 million. Prior to March 11, 2020, the Citibank Credit Facility was \$1.030 billion with Tranche A available in an amount equal to \$830 million and Tranche B available in an amount equal to \$200 million. In connection therewith, the fund has agreed to pay its pro rata portion of commitment fees for Tranche A of the Citibank Credit Facility and the BNYM Credit Facility. Interest is charged to the fund based on rates determined pursuant to the terms of the respective Facility at the time of borrowing.

The average amount of borrowings outstanding under the Facilities during the period ended December 31, 2020 was approximately \$26,230 with a related weighted average annualized interest rate of 2.55%.

NOTE 3—Investment Advisory Fee and Other Transactions with Affiliates:

(a) Pursuant to an investment advisory agreement with the Adviser, the investment advisory fee is computed at the annual rate of .75% of the value of the fund's average daily net assets and is payable monthly.

(b) Under the Distribution Plan adopted pursuant to Rule 12b-1 under the Act, Service shares pay the Distributor for distributing its shares, for servicing and/or maintaining Service shares' shareholder accounts and for advertising and marketing for Service shares. The Distribution Plan provides for payments to be made at an annual rate of .25% of the value of the Service shares' average daily net assets. The Distributor may make payments to Participating Insurance Companies and to brokers and dealers acting as principal underwriter for their variable insurance products. The fees payable under the Distribution Plan are payable without regard to actual expenses incurred. During the period ended December 31, 2020, Service shares were charged \$39,665 pursuant to the Distribution Plan.

The fund has an arrangement with the transfer agent whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset transfer agency fees. For financial reporting purposes, the fund includes net earnings credits, if any, as shareholder servicing costs in the Statement of Operations.

The fund has an arrangement with the custodian whereby the fund will receive interest income or be charged an overdraft fees when cash balances are maintained. For financial reporting purposes, the fund includes this interest income and overdraft fees, if any, as interest income in the Statement of Operations.

The fund compensates BNY Mellon Transfer, Inc., a wholly-owned subsidiary of the Adviser, under a transfer agency agreement for providing transfer agency and cash management services inclusive of earnings credits, if any, for the fund. The majority of transfer agency fees are comprised of amounts paid on a per account basis, while cash management fees are related to fund subscriptions and redemptions. During the period ended December 31, 2020, the fund was charged \$1,120 for transfer agency services, inclusive of earnings credit, if any. These fees are included in Shareholder servicing costs in the Statement of Operations.

The fund compensates The Bank of New York Mellon under a custody agreement for providing custodial services for the fund. These fees are determined based on net assets, geographic region and transaction activity. During the period ended December 31, 2020, the fund was charged \$19,720 pursuant to the custody agreement.

During the period ended December 31, 2020, the fund was charged \$13,982 for services performed by the Chief Compliance Officer and his staff. These fees are included in Chief Compliance Officer fees in the Statement of Operations.

The components of “Due to BNY Mellon Investment Adviser, Inc. and affiliates” in the Statement of Assets and Liabilities consist of: investment advisory fees of \$190,312, Distribution Plan fees of \$4,143, custodian fees of \$3,489, Chief Compliance Officer fees of \$2,903 and transfer agency fees of \$274.

(c) Each Board member also serves as a Board member of other funds in the BNY Mellon Family of Funds complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

NOTE 4—Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities, during the period ended December 31, 2020, amounted to \$164,770,945 and \$191,089,092, respectively.

At December 31, 2020, the cost of investments for federal income tax purposes was \$245,489,555; accordingly, accumulated net unrealized appreciation on investments was \$72,740,462, consisting of \$85,236,292 gross unrealized appreciation and \$12,495,830 gross unrealized depreciation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Trustees of Opportunistic Small Cap Portfolio

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Opportunistic Small Cap Portfolio (the “Fund”) (one of the funds constituting BNY Mellon Variable Investment Fund), including the statements of investments and investments in affiliated issuers, as of December 31, 2020, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting BNY Mellon Variable Investment Fund) at December 31, 2020, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2020, by correspondence with the custodian and others or by other appropriate auditing procedures where replies from others were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more investment companies in the BNY Mellon Family of Funds since at least 1957, but we are unable to determine the specific year.

New York, New York

February 09, 2021

IMPORTANT TAX INFORMATION (Unaudited)

For federal tax purposes, the portfolio hereby reports 100% of the ordinary dividends paid during the fiscal year ended December 31, 2020 as qualifying for the corporate dividends received deduction. Shareholders will receive notification in early 2021 of the percentage applicable to the preparation of their 2020 income tax returns.

BOARD MEMBERS INFORMATION (Unaudited)

INDEPENDENT BOARD MEMBERS

Joseph S. DiMartino (77) **Chairman of the Board (1995)**

Principal Occupation During Past 5 Years:

- Director or Trustee of funds in the BNY Mellon Family of Funds and certain other entities (as described in the fund's Statement of Additional Information) (1995-Present)

Other Public Company Board Memberships During Past 5 Years:

- CBIZ, Inc., a public company providing professional business services, products and solutions, *Director* (1997-Present)

No. of Portfolios for which Board Member Serves: 109

Peggy C. Davis (77) **Board Member (2006)**

Principal Occupation During Past 5 Years:

- Shad Professor of Law, New York University School of Law (1983-Present)

No. of Portfolios for which Board Member Serves: 39

Gina D. France (62) **Board Member (2019)**

Principal Occupation During Past 5 Years:

- Founder, President and Chief Executive Officer, France Strategic Partners, a strategy and advisory firm serving corporate clients across the United States (2003-Present)
- Corporate Director and Baldwin Wallace University, Trustee (2013-Present)
- Dance Cleveland, non-profit, Trustee (2001-Present)

Other Public Company Board Memberships During Past 5 Years:

- Huntington Bancshares, a bank holding company headquartered in Columbus, Ohio, *Director* (2016-Present)
- Cedar Fair, L.P., a publicly-traded partnership that owns and operates amusement parks and hotels in the U.S. and Canada, *Director* (2011-Present)
- CBIZ, Inc., a public company providing professional business services, products and solutions, *Director* (2015-Present)
- FirstMerit Corporation, a diversified financial services company, *Director* (2004-2016)

No. of Portfolios for which Board Member Serves: 25

BOARD MEMBERS INFORMATION (Unaudited) (continued)
INDEPENDENT BOARD MEMBERS (continued)

Joan Gulley (73)
Board Member (2017)

Principal Occupation During Past 5 Years:

- Director, Nantucket Library (2015-Present)
- Governor, Orchard Island Club (2016-Present)

No. of Portfolios for which Board Member Serves: 43

Robin A. Melvin (57)
Board Member (2012)

Principal Occupation During Past 5 Years:

- Co-chairman, Mentor Illinois, a non-profit organization dedicated to increasing the quality of mentoring services in Illinois (2014 – 2020); Board member, Mentor Illinois (2013-2020)
- Trustee, Westover School, a private girls' boarding school in Middlebury, Connecticut (2019-Present)
